## ABSTRACT

Our aim here is to create a website that will allow the public to do all the work from home without having to come to this place to facilitate the work being done at this royal nursing home, which was built to provide the public with various ailments and care in the face of the current Covid-19 epidemic situation. Accordingly, through this website, the public will be able to understand about this institution, contact this institution and the services provided by this institution. Accordingly, it will be easier for the public to decide whether this place is suitable or not. The website has made it possible for the public to easily understand how the company has operated so far by posting various frames. This website was created using programming languages such as **HTML, CSS and JavaScript**.

## 1. Introduction

This web site mainly will create for customer-oriented health care stays around in all situations making customer world happier & healthier with quality health care at nursing services catalog. Mainly this website will separate for five sections as home nursing service, residential nursing care, ambulance service, industrial nursing service and medical equipment. Each categories link with their own web pages & customers can easily find the information they need, through the website.

### 1.1. Objectives of the website

- Home
- About Us
- Covid – 19
- Home Nursing Service
  - Industrial Nursing Service
  - Baby Care Home Nursing
  - Jobs
- Elders Home
- Ambulance
- Medical Equipment
- Contact Us

## **1.2. Functional requirements of the website.**

This site will enhance customer loyalty as it will showcase beginning of their service period, their vision and mission as well as the management team in detail. Furthermore, it is important to design this site to suit the existing corona epidemic and to make it easier for the customer to access the service through the company. Not only that customer can make payments through the web site & those payments will link with each bank. it will increase the efficiency of the website.

Then home nursing service category should divide main two parts as baby & mother care at home and jobs categories. In this part mainly pointed about the baby & mother care services because Royal home nursing service provider is dedicated to looking after customers parents, patients as well as their babies at the comfort of their own home. These two main category web pages are link with a home nursing service category.

However, if customer need ambulance services they can find out any information through the website & ambulance services are also categorize Normal patient transport, Covid-19 Patients transport, critical care transport & payments will include to each category on the website. Finally, “contact us” page also included on the website & customers can easily find nursing home contact details as telephone numbers, emails through the web page.

## 2. Design of the website

The screenshot shows the homepage of the Royal Nursing Home (PVT) LTD website. At the top, there is a header with the Sri Lankan national emblem and the logo for 'ROYAL HOME CARE SERVICES'. Below the header is a navigation bar with links for Home, About, COVID-19, Home Nursing Services, Elders Home, Ambulance, Medical Equipment, and Contact Us. The main banner features a collage of images related to nursing care, including a nurse feeding a patient, a group of nurses attending to a patient, and an ambulance. Overlaid on the banner is a teal-colored box containing the text 'ROYAL NURSING HOME(PVT)LTD.' and 'PIONEER & PREMIER ELDER CARE INSTITUTE IN SRI LANKA'. Below the banner, a large headline reads 'We understand the needs of the elders better than anyone else.' A subtext below it states: 'Royal Nursing Home stays around you in all the situations, making your world happier and healthier with our quality healthcare at nursing service catalog.' The page then displays six service sections, each with an image, a title, a brief description, and a 'Read more' button:

- Home Nursing Service**: Experienced and Expert Nursing Care right at the comfort of your home.
- Residential Nursing Care**: Specializing in caring for the elderly & bedridden patients needing long-term care.
- Ambulance Services**: Royal Nursing Home provides you with a prompt, high quality Emergency Ambulance Service.
- Industrial Nursing Service**: NO MORE WORKPLACE INJURIES. Industrial Nursing Services will work with you to design a program.
- Medical Equipment**: Getting medical equipment on rent or purchase at your doorstep has never been this convenient.

At the bottom of the page, there is a footer with links for Contact Us, Email, and Message, along with social media icons for Facebook, Twitter, and LinkedIn. There is also a 'PAY ONLINE' button and a copyright notice: '© 2007 Royal Nursing Home(Pvt) Ltd. msrl@royalnursinghome.com'.

## Baby & Mother Care At Home

Royal Home Nursing Services offers a carefully designed Baby Care program. It is a postnatal care program that takes the workload and the worries away from the new parents. Parenthood is an overwhelming experience and in today's world where couples are sometimes forced to live away from their families or have no family support in this critical period, they have to take care of the baby on their own. This translates into a lot of work and stress for the new parents, especially in the first few months which are critical for both the baby and the mother.

**Caring for your littlest loved ones is a privilege, and we promise to deliver compassionate, professional care you can trust. Our Royal Baby care child care services range from babysitter and nanny services to in-hospital companionship..**

From nanny and sitter services to highly-skilled pediatric nursing, Royal Baby Care offers a wide range of in-home child care options for your family's needs. Caring for your littlest loved ones is a privilege, and we promise to earn your trust by providing compassionate, professional care that meets the highest quality standards. Our Nursing Assistant are fully-screened, certified, and trained to help with anything from day time services to 24-hour special needs care. See how Royal Baby Care and our team of professionals led by a Registered Nurse can help you and your family live life to the fullest.

## AMBULANCE SERVICE

First Time in Sri Lanka Air Suspension Government Approved Ambulance Service.

Ministry of Health Registered No. PHSRC/AS/021

Royal Nursing Home provides you with a prompt, high quality Emergency Ambulance Service.  
Ambulance Service Helpline 011 2 80 40 40

Royal Nursing Home (Pvt)Ltd. has the most number of ambulances owned by a private entity and all our ambulances are equipped with the latest technology. These ambulances have ICU facilities equipped with the cutting-edge life-saving equipment including defibrillators and mobile ventilators and our ambulance beds use shockproof Air Suspension technology that prevents any shaking and tossing, which in turn makes the journey to the hospital less stressful for the patient. We place great emphasis on the safety of the patient during transport and we are the only company that provides facilities that are compatible with international standards at a reasonable price.
